## **Taco Expands High-Efficiency ECM Circulator Portfolio with Stainless Steel Offerings**

Taco Comfort Solutions® announces the addition of NSF/ANSI 61 & 372 certified stainless steel volute options to its popular line of high-efficiency ECM residential circulators. Available 2<sup>nd</sup> quarter 2020, the 007e®, 0015e3®, and 0018e™ app-connected circulator will offer stainless steel versions for potable water applications including hot water recirculation and domestic water heating.

The new stainless steel circulators include all the exclusive features, including *SureStart*® automatic unblocking and air purging, dual electrical knockouts and six inch stranded wire, convenient recessed flange nut-grabbers, and double insulated so no ground wire is needed. Universal four-bolt flange and one-inch union connections are available, all with integral flow check (IFC®) included.
