

SWITCHING RELAYS & ZONE VALVE CONTROLS -5 SERIES PC800-5 KIT

Catalog

The PC800-5 daughter card is an upgradeable option for the SR50X-5 and ZVC40X-5. The PC800-5 (sold separately) offers an energy-saving control option to support indoor and outdoor reset. This option provides an energy-saving program that can adjust the temperature of a modulating condensing boiler or conventional 'On/Off' boiler to increase the comfort level and use less fuel, without needing to install an outdoor sensor. It also supports Outdoor Reset (Weather Compensation) when the outdoor sensor is connected.
